BYOD Instantly. Collaborate Seamlessly.

Unlock productive teamwork with the VB150's BYOD (Bring-Your-Own-Device) support. Just plug in your laptop via a single USB cable for instant, hassle-free content sharing on Zoom, Microsoft Teams, Google Meet™, or Cisco Webex® — requiring no extra software or complex setups. Save time, reduce IT headaches, and boost team productivity, helping teams stay focused on discussions.

Small Device. Big Outcomes.

Small meeting rooms deserve solutions that deliver big results. The VB150 provides stunning 4K resolution that ensures lifelike clarity. Its 120° wide-angle lens captures every participant for fully inclusive conversations. 5X zoom supports better presentations of files and documents. Compact design, professional results — bringing breakthrough meeting technology to any collaboration space.

AI-Powered Focus. Speaker-Centered Results.

The VB150's AI Voice Tracking automatically follows active speakers, keeping remote participants visually connected to conversations. The camera shifts to focus on whoever's talking, maintaining natural meeting flow without manual intervention. By keeping every contribution in view, teams stay engaged and focused in any workspace.

One Frame. Everyone Included.

The VB150's Smart Composition intelligently frames all participants in one view, perfectly transitioning between individual close-ups and group perspectives. Whether highlighting facial expressions or wider half-body views, it ensures everyone has a place in the conversation. With one-click activation, hybrid meetings feel natural and inclusive, keeping remote and in-room teams equally connected.

One Mic Addition. Endless Possibilities.

The VB150 grows with your team's productivity needs through expandable audio coverage. Add an extra microphone to instantly extend pickup range, adapting the VB150 to larger spaces. This flexible setup delivers clear, reliable audio in rooms of any size — ensuring every voice is heard, from intimate huddles to broad team discussions.

Your Space. Your Way.

The VB150 is built to adapt to your meeting space. Whether installed under your TV, mounted on top, attached to walls, or used with tripods — the VB150 fits any environment perfectly. Wherever you place it, you get optimal camera placement for every meeting scenario.
